AIRFIELD INSIGHTS

Visualize your airport performance

Transforming data into real-time, actionable insights to enhance collaboration and drive smarter airfield e ciency decisions.

BUSINESS OUTCOMES

ENHANCE COLLABORATION
Working in partnership from a consistent, trusted source of data for airport wide collaboration across airports, airlines and ATC.

IMPROVE PERFORMANCE
Introduce, monitor and improve key performance indicators, making every movement count.

MAXIMIZE DATA
Charts, graphs, data tables and map overlays that are all uniquely customizable on demand.

PRODUCT FEATURES

REAL-TIME DISPLAY
Customizable airfield view, filtered to display what's most important to any user type.

HISTORIC PLAYBACK
Rewind to a specific time for event analysis, lesson learning, training and continuous improvement.

POWERED BY CHORUS
Technology agnostic platform for airport wide data collaboration, connectivity and app development.

ACCESSIBLE AND SCALABLE
Accessible via any internet connected device with role-based access across airfield stakeholders.

MAP OVERLAYS
Visualize your airfield like never before with map overlays displaying taxi routes, hotspots and more.

INTERACTIVE ANALYSIS
Dynamic, filtered charts for total reporting control by airline, aircraft type, or airfield asset.
